

Complete Village Adopted Proposal

(Estimated Costings)

The Village Adoption Project consists of undertaking to construct a brand new village in the most devastated areas of the tsunami. Along with new earthquake proof houses, we will also construct a school, gardens, community centre, vocational training centre, medical centre, etc. With the gracious assistance and support of everyone, we will truly create a model village for the affected people.

- **50 earthquake proof houses @ £3,000 each = £150,000**
- **Education Complex comprising of School, Orphanage, Library, Industrial Training Centre and Playground = £50,000**
- **Community Hall = £10,500**
- **Place of Worship = £8,000**
- **Village Infrastructure (water tank, lighting, roads, including communication infrastructure) = £30,000**

TOTAL = £248,500

A Model Village
